16TH FINANCE COMMISSION REPORT

PARMAR SSC

- The **Finance Commission** (**FC**) is a Constitutional body constituted by the President **every five years** to make recommendations on centre-state fiscal relations.
- The Report of the 16th Finance Commission (Chair: Dr. Arvind Panagariya) was tabled in Parliament on February 1, 2026 for the five-year period between 2026-27 and 2030-31.

Share of states in central taxes

- The share of states in the divisible pool of central taxes has been recommended at **41%**. This is the same as the share recommended by the 15th Finance Commission.

Criteria	15th FC (2021-26)	16th FC (2026-31)
Income Distance	45%	42.5%
Population (2011)	15%	17.5%
Demographic Performance	**12.5%**	**10%**
Area	15%	10%
Forest	10%	10%
Tax and Fiscal Efforts	2.5%	N.A.
Contribution to GDP	**N.A.**	**10%**

16TH FINANCE COMMISSION REPORT

Per Capita GSDP Distance (Income Distance):

- The 16th FC has defined income distance as the difference between the per capita GSDP of a state and the average of the per capita GSDP of the top three large states with the highest per capita GSDP.
- Per capita GSDP has been computed as the average over the period 2018-19 and 2023-24, excluding the pandemic year of 2020-21.
- **States with a lower per capita GSDP** will receive a **higher share** on this parameter, to maintain equity among states.

Demographic Performance:

- The 15th FC had introduced this parameter to award states for controlling population on the basis of **Total Fertility Rate** (**TFR**).
- The 16th FC has redefined this to account for population growth between **1971** and **2011** instead of relying on change in TFR. States with lower population growth will have a higher share under this parameter.

Forest:

- The 16th FC has assigned weightage to both the share of a state in the overall forest area, and its share in the increase in overall forest area between 2015 and 2023.
- Further, it has also considered open forests in arriving at the total forest area. In contrast, the 15th FC had considered **only dense and moderately dense forests**, and defined the parameter only in terms of share in the overall forest area.

16TH FINANCE COMMISSION REPORT

Contribution to GDP:

- The 16th FC has introduced this parameter to account for the contribution to national GDP.
- This replaces the tax and fiscal efforts parameter used by the 15th FC which rewarded states with a higher tax collection efficiency.
- GSDP of each state has been measured as the average nominal GSDP between 2018-19 and 2023-24 (excluding the pandemic year of 2020-21).

Grants-in-aid

- The 16th FC has recommended grants worth Rs 9.47 lakh crore over the five-year period.
- These comprise grants for: (i) urban and rural local bodies, and (ii) disaster management.
- The 16th FC has **discontinued** the following grants recommended by the 15th FC:
  - **(i) revenue deficit grants**
  - **(ii) sector-specific grants**
  - **(iii) state-specific grants.**

Grants for local bodies:

- The 16th FC has recommended grants worth Rs 4.4 lakh crore and Rs 3.6 lakh crore for rural and urban local bodies, respectively.
- These grants are divided into basic (80%) and performance-based (20%) components.
- Special Infrastructure Grants and Urbanisation Premium Grants have also been recommended for urban local bodies.

16TH FINANCE COMMISSION REPORT

Fiscal Roadmap:

- The Commission has recommended that the Centre should bring down the **fiscal deficit** to **3.5% of GDP by 2030-31**.
- It recommended the annual fiscal deficit limit for **states** to be 3% of **GSDP**.
- It also recommended strictly discontinuing the practice of off-budget borrowings for states and bringing all such borrowings onto their budgets.
- The Commission has projected the combined debt of the central and state governments to decline from 77.3% in 2026-27 to 73.1% of the GDP in 2030-31.

Power-sector reforms:

- The Commission recommended that states should actively pursue **privatisation of electricity distribution companies** (**DISCOMs**).
